

Sage 100 Enhancements

Integrated Payment Processing and Embedded Document Management are Better Together

Integrated and Flexible Payment Processing

Work seamlessly within the business systems you already use to avoid manual entry and reduce error with an integrated payment processing solution.

- Tokenized credit card data simplifies PCI Compliance
- Daily, automatic batch reporting
- Level 3 Processing
- Multi-currency capable
- ClickToPay integrated invoice portal
- ACH and ClickToPay Direct
- No installation, maintenance, or setup fees
- 24/7 live support

Faster Funding. Fewer Fees.

Credit card and payment processing are just a small part of the APS Payments solutions-driven model. We leverage insider knowledge to secure the best rates and minimize chargebacks for our partners and merchants. If you do not understand your bill, we will educate you on how you are currently priced.

Partner-centric
Approach

APS Payments works diligently to get you the lowest credit card processing rates, reduce your risk, and provide the best solutions for your business. Batch processing, seamless integrations, and automation tools such as recurring billing increase your business' efficiency and improve cash flow. From multiple payment methods to multiple currencies, we provide trustworthy service for every business and every payment. What's more, we do this all at a negative cost to your company. When it comes to payments, don't settle for less than APS!

APS Payments and InstaDocs from DSD work seamlessly together for Sage 100.

Free Merchant Statement Audit

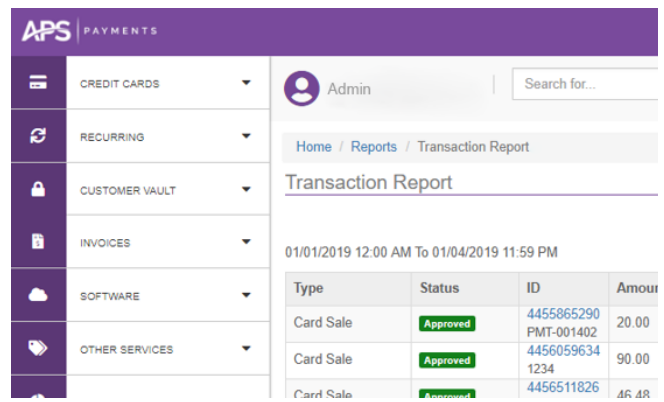

You need a processor that can guide you to what works best for you. With APS Payments, you will always know that we are working to provide the right solution for your business.

APSPAYS Vault

The APSPAYS Vault is fully integrated within the Sage software, allowing you to store customer payment credentials for future use. APSPAYS Vault is a 100% PCI-DSS compliant gateway with many reporting tools for reconciliation. Use our tokenized protection and data encryption to further enhance your security.

Save
up to 43%

Level 3 Rates

Level 3 processing allows you to receive discounted rates on Visa and MasterCard B2B transactions. The average small to mid-sized business saves \$18,000 per year by providing the comprehensive level 3 data requirements. APS Payments Sage integrations will automatically send the required data for you, to ensure quick payments at lower costs.

ClickToPay + ClickToPay Direct

APS **ClickToPay** is a simple and secure way to have invoices paid directly from Sage 100 to your customers. You simply send a copy of the invoice via email, your customer opens the email, and selects which payment method they would like to use. ClickToPay allows your customer to create a profile and save their card or bank account information on file for future payments.

ClickToPay Direct is the latest advancement in Bank-to-Bank transfers in neatly packaged web check technology. Our exclusive ClickToPay Direct product reduces chargeback replies to 72 hours for B2B transactions while allowing your customers to easily make secure transfers directly through Sage 100.

Easy Payments with ClickToPay + InstaDocs

InstaDocs provides Sage 100 customers the first and only embedded document management solution that also integrates with APS ClickToPay. By leveraging the capabilities of these solutions with the Sage 100 paperless office, your system can automatically email the customer a copy of their invoice, plus all of the associated documents stored in InstaDocs. The customer receives the email, with all the attachments and a link to the APS ClickToPay invoice portal to easily (and quickly) pay. The payment will come right back into Sage 100 preventing an AR clerk from having to make a cash receipts entry or call the customer to get payment.

Every Business. Every Payment.
